**Please note:** The playlist selection is based on songs that are charting at present, new and current releases, some 'alternate' country, some Australiana and the occasional personal favourites/past hit included. Playlists on any one network are usually not repeated within the month. Past playlists are available for download from the [SHOWCASE AUSTRALIA](#) radio program web page.

In the event of an Australian country music festival / awards / or special occasion, the music of the artists who are appearing at that event, or who have made any final nominations is also considered for airplay inclusion.

The last track on the show is usually one of my own. Apart from it being a small return for effort, it also allows the stations to fade out the program according to their time schedule, leaving other artists' music intact.

**Time conversion:**

Check the World Clock time converter to help work out what the corresponding time is in your area at; <http://www.timeanddate.com/worldclock/converter.html>

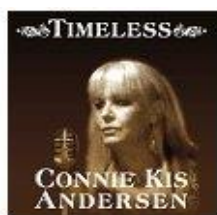

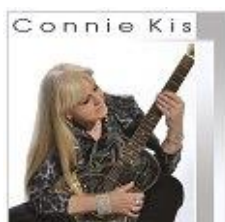

Yours in music
